Every day matters, every minute matters...

Dear Parents,

Because of the disruption of Covid-19 and more recently shifting hours of Ramadan we have been very forgiving on students entering the school well after the official starting time of 7:40 am.

It is now time to address this issue, our plan is to give parents and students the rest of this week to make the adjustment to 7:40 am with only a reminder entry slip being handed to the student. This is a gentle way to let everyone know that there needs to be an adjustment made in planning to get to school on time.

We are hoping this will be enough warning to solve the problem permanently. From the following week any frequently late students will receive a formal written warning and if the issue continues, we will look at escalating the actions that we can take.

I sincerely hope we see this unpunctuality addressed and I would be very grateful to all parents involved if you can support the school to address this matter.

Regards,

Dr. Brian Gray

Principal
Springdales School Dubai
